Mission Statement

We aim to achieve commercial success by exceeding our customer's needs and expectations by the provision of high quality, good value logistics through total quality management and teamwork.

Roche Logistics Group is Ireland's leading global provider of transportation and logistics services – over 35 years in business in moving goods worldwide safely, quickly, efficiently – no consignment too big or too small.

Adopting a customer focused approach has enabled us to become the preferred logistics business partner for many blue chip client companies. This approach allows us to offer a customised service provision so as to exceed customers' expectations.

Our commitment to investing in the latest logistics technologies has automated each customer's supply chain procedures. This results in a swifter and the most accurate service that allows customers to track the movement of their goods.

"If we look after our customers and exceed their expectations, they will return again and again"

- ▶ 100,000 sq ft of high bay narrow aisle quality racked warehousing
- ▶ Over 10,000 racked pallet spaces
